The Wrong Products!"

Complex ES**

**WHAT SETS IT APART:**

With a high concentration  
of retinol (1 percent),  
this formula delivers the  
punch of its prescription-  
only counterparts.

**THE DOCTOR SAYS:**

"This is similar to  
tretinoin, which is available  
only from a doctor,"  
says Day. "It gets  
results comparable to  
a prescription product."
